SUBJECT: DUBLIN AIRPORT NOISE ACTION PLAN 2024-2028

Dear Fingal County Council (FCC) Action Planning Authority (APA),

FCC APA as the Competent Authority had procured a Strategic Environmental Assessment (SEA) Applicability Report (Report Ref: P30-12128C-31-R01-D05) and Appropriate Assessment (AA) Screening (Report Ref: P30-12128C-30-R01-D05) from Logika Consultants Ltd on behalf of Noise Consultants Ltd (Logika).

Those reports related to and were based upon the content of the draft Dublin Airport Noise Action Plan 2024-2028 (NAP).

The draft NAP was then subject to public consultation from the 3rd of September 2024 to the 15th of October 2024.

FCC is now preparing the final NAP. FCC has asked Logika to review the text of the proposed final NAP to confirm that none of the changes from the draft NAP fundamentally alter or change the conclusions drawn within the AA Screening Report and SEA Applicability Report, which concluded that Stage 2 AA is not required and the SEA Directive does not apply to the draft NAP. Logika can confirm that is the case and remain appropriate to the final NAP.

Kind Regards,

Logika Group
